

DEPARTMENT OF AGRICULTURE

National Agricultural Statistics Service

Notice of Intent to Request Revision and Extension of a Currently Approved Information Collection.

AGENCY: National Agricultural Statistics Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the intention of the National Agricultural Statistics Service (NASS) to request revision and extension of a currently approved information collection, the List Sampling Frame Surveys. Revision to burden hours will be needed due to 1) The survey not being conducted for 2022 due to the Census of Agriculture, and the discontinuation of the June Area Research Project (JARP) currently in the inventory. Annually, NASS obtains lists of farm and ranch operators from different crop and livestock organizations. Before adding these names to our list of active operators we will contact the individuals to determine if they qualify as a farm or ranch and then collect basic information from them on the size and type of operation they have. These data will be used to eliminate any duplication we may have with names already on our list.

DATES: Comments on this notice must be received by [INSERT DATE 60 DAYS AFTER DATE OF PUBLICATION IN THE FEDERAL REGISTER] to be assured of consideration.

ADDRESSES: You may submit comments, identified by docket number 0535-0140, by any of the following methods:

- E-mail: ombofficer@nass.usda.gov. Include docket number above in the subject line of the message.
- eFax: (855) 838-6382

SUPPLEMENTARY INFORMATION:

Title: List Sampling Frame Surveys.

OMB Control Number: 0535-0140.

Expiration Date of Approval: May 31, 2022.

Type of Request: Intent to Seek Approval to Revise and Extend an Information Collection for a period of three years.

Abstract: The primary objective of the National Agricultural Statistics Service is to prepare and issue State and national estimates of crop and livestock production, economic statistics, environmental statistics related to agriculture and also to conduct the Census of Agriculture. The List Sampling Frame Surveys are used to develop and maintain a complete list of possible farm and ranch operations. The goal is to produce for each State a relatively complete, current, and unduplicated list of names for statistical sampling for agricultural operation surveys and the Census of Agriculture. Data from these agricultural surveys are used by government agencies and educational institutions in planning, farm policy analysis, and program administration. More importantly, farmers and ranchers use

NASS data to help make informed business decisions on what commodities to produce and when is the optimal time to market their products. NASS data is useful to farmers in comparing their farming practices with the economic and environmental data published by NASS.

Authority: These data will be collected under the authority of 7 U.S.C. 2204(a).

Individually identifiable data collected under this authority are governed by Section 1770 of the Food Security Act of 1985 as amended, 7 U.S.C. 2276, which requires USDA to afford strict confidentiality to non-aggregated data provided by respondents. This Notice is submitted in accordance with the Paperwork Reduction Act of 1995 (Public Law 104-113) and the Office of Management and Budget regulations at 5 CFR part 1320.

All NASS employees and NASS contractors must also fully comply with all provisions of the Confidential Information Protection and Statistical Efficiency Act (CIPSEA) of 2018, Title III of Pub. L. No. 115-435, codified in 44 U.S.C. Ch. 35. CIPSEA supports NASS's pledge of confidentiality to all respondents and facilitates the agency's efforts to reduce burden by supporting statistical activities of collaborative agencies through designation of NASS agents, subject to the limitations and penalties described in CIPSEA.

Estimate of Burden: Public reporting burden for this collection of information is estimated to average 10 to 15 minutes per respondent.

Respondents: Potential Farmers and Ranchers.

Estimated Number of Respondents: 260,000 (annual average).

Estimated Total Annual Burden on Respondents: With an estimated response rate of approximately 65% NASS estimates the burden to be approximately 60,000 hours (annually).

Comments: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency,

including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, technological or other forms of information technology collection methods.

All responses to this notice will become a matter of public record and be summarized in the request for OMB approval.

Signed at Washington, D.C., December 1, 2021

Kevin L. Barnes,
Associate Administrator.
